Claim(s) discussed: Claim 1

Identification of prior art discussed:

Yamada 5,589,299; Yamahira 5,601,950; Idota 5,686,203

Agreement with respect to the claims f) ☐ was reached. g) ☒ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant stated Yamada and Idota teach plating layers, not a single alloy material for the collector foil. Examiner suggested amending the claims to recite "...the Cu-alloy comprises at least one..." and "...the copper-based material further comprises a material selected..." to exclude a foil which is not a single material alloy layer. Such an amendment appears to overcome the anticipation rejection in view of Yamada and Idota, however, further consideration will be needed to determine if the claims are obvious in view of Yamada and Idota. The rejection in view of Yamahira has not be overcome. Yamahira suggests the claimed invention. Examiner suggested Applicant might be able to distinguish the instant claims over Yamahira by providing evidence of unexpected results regarding the process limitations.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
